Dr. J. A. Marvin of Lansing Predicts a Rousing

VICTORY FOR REPUBLICANISM

He Says John T. Rich Will Have 15,000 Plurality and Carry the Rest of the Ticket.

Register! Last chance today. Dr. J. A. Marvin of Lansing, was a guest at the Morton yesterday. Dr.

Marvin bas been making campaign speeches during the past six weeks, and was on his way to Evart, where he will speak tonight.

"I think Rich will carry Michigan by at least 15,006," he said last night. "Itstrikes me that the outlook is especially favorable to the republican party. There are some who profess to be in doubt; but if we had not been defeated two years ago, there is not anybody that would say the present indicate us do not point to an overwhelming republican victory. It is in the air. Wherever I has been I have found everything favo acle to republican success. Mr. Morse is not making the run his friends hoped he would. He is not appealing strongly to the veterans. I have yet to find a republican and soldier that will vote for him. The democratic veterans may stay by him, but he won't catch any republican votes. Morse overdid the old solduer busidess at the start. He talked as if he owned the entire grand army. That's where Allen B. made a mistake.

There will be a full republican vote poiled this fall. The democrate will not catch the party napping as they did in 1890. Many democrats are not registering this year. I spoke at Sherwood, in Branch county, last night, and they teld me there that woile all the known republican voters in the predict bad registered, there were many democrats that had failed to

Full Republican Vote.

I don't think either party is so thoroughly organized as it was in 1888. There have been fewer campaign clubs formed, but still there is a great deal of interest taken in the campaign, and big meetings are the rule. The farmers will vote for the republican ticket this fall, and the workingmen will do the same. They are not going to be again deceived by the bugbear manufactured from the McKinley bill. The law has been tested now, and its benefits are evident to everybody. The 1890 landslide will go the other way this year. Lo king at the matter from an unprejudiced point of view, I believe the entire republican state ticket will be elected. The democrats will not gain much from the people's party, and the votes of the demo-populists will more than be overcome by the pro-hibitionists that will go back to the re-publican party."

WICKED YOUNG MEN And Their Attempts to Conceal and Dis-

play Their Naughtiness. "Jules Todd, Rotterdam; John de Kuyper, Rotterdam." These are two names that not infrequently appear on the registers at the Morton and Sweet's. They are nown alleged "sporty" young men about the city to conceal their identity when they step at the hotels after a night with the boys. The names were inthey were not usually in condition to go home, and so preferred to stop at the hotel. They are no longer "on the turf," but the names have been seized upon by some callow young members of society, who aspire to be bad, naughty men, but who are a little timid about having the fact knowledge. vented several years ago by two well-known members of local society, wno paced in a fairly fast class. When their families. Their parents are in the first ten of the local 400, and the scions make a bold bluff at upholding the family's reputation for re-spectability and their own repu-tation for being "awfully wicked." One of the young bloods was recently married; but whenever you read in the morning paper that "Mrs. H. D. Snow has gone to Chicago," you will find the name "John de Knyper, Rotterdam," written in a "jaggy" hand on the register of one of the notels.

"Yes, we tolerate it," said one of the clerks last night, "but it makes us very tired. These kindergartners that attempt to pose as 'dead game sports' put in the city library. are very annoying. Take that young cuss there, for instance. If his father knew that he was drinking champagne with fast wimen instead of playing chass at the Y. M. C. A. rooms, as he claims to be, he would take the young terday afternoon. man into the barn and spank him. They tell us how tough they are and swear us to secrecy. We take their ewest us to secrecy. We take their word for it and let it go at that. A man that is a thoroughbred 'sport,' though, does not talk much about it, and he never resorts to infantile ruses to conceal his acts. He has more effeetive methods."

RELIGION OF REASON.

The Rev. Howard McQueerey Delivers a Powerful Address.

The Rev. Howard McQuearey of Saglnaw exchanged pulpits with the Rev. Dr. Fluhrer yesterday morning. The subject of his sermon was, "The Religion of Reason." In the evening he first week in December. He said he did not wan to be understood as considering the church a necessary but the narrow, ignorant, intolerant eccessasticam and bigotry in the church which would tyrannize over the human mind and conscience. He declared heresy trials a disgrace to the nineteenth century. If the church could not stand criticism it ought to fall. If it was of God man could not overthrow it, but if it was of man it would surely come to nought. The address was one of the most polished and masterful ever delivered from a pulpit in the city.

CHURCH AND STATE

Dr. Campbell Fair Discusses the Relation of Politics and Religion.

The Rev. Campbell Fair discussed politics and religion last night. He took his text from Matthew xxii:21, "Render unto Caesar the things that "Render unto Caesar the things that are Caesar's, and unto God the things that are God's." He said: "The first part of the verse refers to politics and the second to religion. The Lord bases the authority of both upon the same foundation. The true christian will ever be a loyal citizen, and the lawabiding citizen should be the consist ant man of God. As such he will not think lightly of his political duties. Hence we may ask in what way

may the christian be guided in per forming his duty at the polls, I answer thus: First-By asking himself how best he can serve God in the selection of men for whom to vote? Second— In which way can he best secure the prosperity of the country and not be influenced by secular or class consider-ation? Third—Are the men for whom he is called upon to vote men who will uphoid law, recognize its anthority and ensarce its administration? The discharge of these duties would secure to the republic officeholders that will

DEPUTY MARSHALS,

They Are Not Expected to Go to the Polls Unless Necessary.

WASHINGTON, Nov. 6.-In an interview with a representative of the United Press tonight, Attorney General Aldrich said in regard to the irregular monthly issued by him that he did not anticipate any trouble or conflict be-tween the federal and state officers in the enforcement of election laws next Tuesday. The United States officers had been cautioned against doing anything to provoke a controversy, and he had no d ubt that state officers had re-

The Carnegie concerns have the best equipped plant on this continent. They can make steel cheaper than anybody else, and with a low tariff and wages reduced in the same degree they could absolutely dominate the market.

When a prominent official of their ncerns was asked at the beginning of the Homestead strike for an explana-tion of such a costly effect at this time, he replied: "We are getting ready for free trade."

ILLINOIS REPUBLICAN.

But Altgeld Democrats Still Keep Up the Fight.

NEW YORK, Nov. 6 .- The close of the bay's bailoting. While the republicans will not admit the doubt, the democrats have been making a most vigorous can paign and express confidence that their work has not been in vain. The state campaign committees are irreconcilable in their statements regarding the situation. Mr. Clark of the republican campaign committee declares that Fifer and all the republi can candidates will be elected, and that the electoral vote of the state will be cast for Harrison. Over at demoturned to the city clerk tonight under cratic headquarters, however, they claim that the running in the interior of the state will be almost even, and be dedicated some time during the hol. that Cook county will decide the conlest in favor of the democrats. Fifteen thousand is the majority claimed by each side. The republicans are likely to regain recent losses in

some of the congressional districts. While the democrats have been sucstate panes, the republicans insist that the state will give her usual majority to the Harrison electoral ticket. The feeling is the arrosts and counter arrest of finise Register Roid by chief United States supervisor A. W. Shaffner, and of Supervisor Shaffner, by State Regis.

The democrats say they will cer-tainly carry all the districts save the fifth and eighth, where they admit the election will be very close. They think they will get these districts also. The third party leaders refuse to make any estimate. Brown, the third party candidate, has withdrawn in the ninth district and Harrity, the candidate for sheriff in the Charlotte district has also withdrawn in favor of the democrate.

BOYD APPEALS To Nebraska Democrats to Support

Weaver Electors and Thus Win. LINCOLN, Neb., Nov. 6 .- Complications resulting from the fusion of the democrate and independents make this a doubtful state. The republican plu-rality in 1888 of 27,573 will be nearly. if not entirely wiped out, and there is a chance of the independent ticket winning on governor and the legisla-ture. The congressmen will probably be three republicans, one free silver be three republicans, one free silver democrat and two populists. Governor Boyd has sent out an appeal to democrats to vote for Weaver electors in order to keep the state from going to Harrison, and if they obey his request the result will be very close.

The republicans are still confident of weaver and do not talk about any

of success, and do not talk about any thing less than a plurality of 10,000, and expect to retain the legislature on joint ballot, and return Senator Paddock to Washington.

DISGRACEFUL ROW.

Democrats and Populists Attack Repub lican Paraders and Are Worsted.

AMERICUS, Mass., Nov. 6 .- The republican rally and Flambeau club, which paraded here last night, came near winding up in a general riot. The parade was followed by an unruly mob of populists and democratic toughs, who from jeering and hooting finally came to throwing eggs and stones. J. W. Eastman, chairman of the county republican committee, was literally plastered with stale eggs, and several of the flambeau carriers reseveral of the flambeau carriers received the same treatment. Captain M. B. Wilcox was struck in the back of the head with a large stone and was seriously injured. The paraders finally turned on the mob and two or three of the ring leaders were roughly handled and beaten with torches, after which they dispersed.

Another View of West Virginia.

WHEELING, W. Va., Nov. 6.—Both sides claim the state, but either party will be satisfied with 1,000 plurality or less. It is the closest and hottest fight West Virginia has ever had. Stephen B. Elkins has been here for three weeks. He has visited every county and predicts the success of the Harrison and Reid electors.

Thomas E. Davis, republican candiwhich powers are more specifically defined by section 202 and 2024 revised statutes, and taken in connection with date for governor, says he is sure of election and of the state going for Harrison. The republicans expect to elect three congressmen out of eight. The democrate are fully as confident as to the result of the vote for electors. They say the state is safely democratic and have wired the national demo-cratic committee not to feel uneasy about West Virginia. Only a count of

Nevada for Weaver.

Vincinia City, Nov. 6.—It is pretty generally conceded by the leaders of both the old parties that Nevada will cast her three electoral votes for Weaver this year. The Australian ballot will be tested for the first time here and the vote will exceed but little that of 1888, when Harrison had a plurality of 1,212 out of a total of 12,605 votes. The Weaver men count upon a plurality of between 2,000 and 4,000 and expeet to capture the next legislature.
This will give the selection of a United
